INDEX OF AUTHORS

A

Abrahams, D. Gordon: The Q–T interval in acute rheumatic carditis. 342.
Alimurung, Mariano, M. (and Aldo A. Luisada and Felipe Mendoza): The duration of normal heart sounds. 41.
Allanby, K. D.: Circulation times in congenital heart disease. 165.
Alstad, K. Severin: The effects of thiocyanate on basal and supplemental blood pressures. 249.

B

Bain, Curtis (and Terence East): Right ventricular stenosis. 145.
Baker, Charles (and R. C. Brock, and Maurice Campbell and S. Suzman): Morbus cœruleus. 170.
—— (and J. R. Trounce): Arteriovenous aneurysm of the Lung. 109.
Brock, R. C. (and Charles Baker, and Maurice Campbell, and S. Suzman): Morbus cœruleus. 170.
Burchell, Howard, B.: Sino-auricular block, interference dissociation, and different recovery rates of excitation in the bundle branches. 230.

C

Campbell, Maurice (and Charles Baker, and R. C. Brock, and S. Suzman): Morbus cœruleus. 170.
Coblentz, B. (and R. M. Harvey, and M. I. Ferrer, and A. Cournand, and D. W. Richard, Jr.): The relationship between electrical and mechanical events in the cardiac cycle of man. 1.
Cookson, Harold: mitral stenosis in later life. 155.
Cournand, A. (and B. Coblentz, and R. M. Harvey, and M. I. Ferrer, and D. W. Richards, Jr.): The relationship between electrical and mechanical events in the cardiac cycle of man. 1.
Cowen, E. D. H. (and D. H. Parnum): The phonocardiography of heart murmurs.

D

Dadds, J. H. (and Clifford Hoyle): Congenital aortic septal defect. 390.
Davies, C. E. (and R. E. Steiner): Calcified aortic valve. 126.

E

East, Terence: Lay cardiologists. 37.
—— (and Curtis Bain): Right ventricular stenosis. 145.
Evans, William: Familial cardiomegally. 68.

F

Fatti, L. (and J. C. Gilroy): Thoracoscopy as an aid to diagnosis in congenital heart disease. 398.
Ferrer, M. I. (and B. Coblentz, and R. M. Harvey, and A. Cournand, and D. W. Richard, Jr.): The relationship between electrical and mechanical events in the cardiac cycle of man. 1.

G

Gilchrist, Rae (and Marjory A. Keith, and Barnet Woolf): The results of medical and surgical treatment of essential hypertension. 287.
Gilroy, J. C. (and L. Fatti): Thoracoscopy as an aid to diagnosis in congenital heart disease.
Goodwin, J. F. (and E. J. Wayne and H. B. Stoner): The effect of adenosine triphosphate on the electrocardiogram of man and animals. 55.
—— (and R. E. Steiner, and E. J. Wayne): Transposition of the aorta and pulmonary artery demonstrated by angiocardiography. 279.

H

Harrison, C. V. (and Paul Wood): Hypertensive and ischæmic heart disease. 205.
Harvey, R. M. (and Coblentz, and M. I. Ferrer, and A. Cournand, and D. W. Richard Jr.): The relationship between electrical and mechanical events in the cardiac cycle of man. 1.
Hoyle, Clifford (and J. H. Dadds): Congenital and aortic septal defect. 390

J

Jones, A. Morgan (and F. A. Langley): Aortic sinus aneurysms. 325.

K

Keith, Marjory A. (and Barnet Woolf and Rae Gilchrist): The results of medical and surgical treatment of essential hypertension. 287.
Knox, J. A. C.: The heart rate with exercise in patients with auricular fibrillation. 119.

L

Landtman, Bernard (and Bernard Schlesinger): Electrocardiographic studies in cretins. 237.
Langley, F. A. (and A. Morgan Jones): Aortic sinus aneurysm. 325.
Luisada, Aldo A. (and Felipe Mendoza, and Mariano M. Alimurung): The duration of normal heart sounds. 41.

M

Maclean, Alex (and Alfred Rogen): Mass miniature radiography in detection of heart disease. 264.
Mendoza, Felipe (and Aldo A. Luisada, and Mariano M. Alimurung): The duration of normal heart sounds. 41.
Meyer, Peter: The electrocardiogram of posterior cardiac infarction. 271.
—— Right bundle branch block and cardiac infarction. 137.

P

Parnum, D. H. (and E. D. H. Cowen): The phonocardiography of heart murmurs. 356.
Paulett, John (and Paul Wood): The effect of digitalis on venous pressure. 83.
Phillips, A. F.: A loud-speaker stethoscope for clinical teaching. 48.

R

Richard Jr., D. W. (and B. Coblentz, and R. M. Harvey, and M. I. Ferrer, and A. Cournand): The relationship between electrical and mechanical events in the cardiac cycle of man. 1.
Rogen, Alfred (and Alex Maclean): Mass miniature radiography in detection of heart disease. 264.
Russell, W. T. (and John A. Ryle): The natural history of coronary disease. A clinical and epidemiological study. 370.
Ryle, John A. (and W. T. Russell): The natural history of coronary disease. A clinical and epidemiological study. 370.

S

Schlesinger, Bernard (and Bernard Landtman): Electrocardiographic studies in cretins. 237.
Smith, K. Shirley (and Franklin G. Wood): Radiokymography in patent ductus arteriosus. 257.
Smirk, F. H.: R. Waves interrupting T waves. 23.
Somerville, W. (and Paul Wood): Cardiac infarction with bundle branch block. 305.
Steiner, R. E. (and C. E. Davies): Calcified aortic valve): 126.
—— (and J. F. Goodwin, and E. J. Wayne): Transposition of the aorta and pulmonary artery demonstrated by angiocardiography. 279.
Stoner, H. B. (and E. J. Wayne and J. F. Goodwin): The effect of adenosine triphosphate on the electrocardiogram of man and animals. 55.
Suzman, S. (and Charles Baker, and R. C. Brock, and Maurice Campbell): Morbus cœruleus. 170.

T

Trounce, J. R. (and Charles Baker): Arteriovenous aneurysm of the lung. 109.

V

Vakil, Rustom Jal: A clinical trial of rauwolfia serpentina in essential hypertension. 350.

W

Wayne E. J. (and J. F. Goodwin and H. B. Stoner): The effect of adenosine triphosphate on the electrocardiogram of man and animals. 55.
—— (and J. F. Goodwin and R. E. Steiner): Transposition of the aorta and pulmonary artery demonstrated by angiocardiography. 279.
Wood, Franklin G. (and K. Shirley Smith): Radiokymography in patent ductus arteriosus. 257.
Wood, Paul (and W. Somerville): Cardiac infarction with bundle branch block. 305.
—— (and John Paulett): The effect of digitalis on venous pressure. 83.
—— (and C. V. Harrison): Hypertensive and ischæmic heart disease. 205.
Woolf, Barnet (and Marjory A. Keith, and Rae Gilchrist): The results of medical and surgical treatment of essential hypertension. 287.

INDEX OF SUBJECTS

A

Abstracts of Cardiology. 105, 201, 289, 414.
Adenosine triphosphate on the electrocardiogram of man and animals, the effect of (E. J. Wayne, J. F. Goodwin, and H. B. Stoner). 55.
Aid to diagnosis in congenital heart disease, thoracoscopy as an (L. Fatti and J. C. Gilroy). 398.
Angiocardiography, transposition of the aorta and pulmonary artery demonstrated by (J. F. Goodwin, R. E. Steiner, and E. J. Wayne). 279.
Aortic septal defect, congenital (J. H. Dadds, and Clifford Hoyle). 390.
Aortic sinus aneurysms (A. Morgan Jones and F. A. Langley). 325.
Aortic valve, calcified (C. E. Davies and R. E. Steiner). 126.
Arteriovenous aneurysm of the lung (Charles Baker and J. R. Trounce). 109.
Auricular fibrillation, the heart rate with exercise in patients with (J. A. C. Knox). 119.

B

Basal and supplemental blood pressures, the effects of thiocyanate on (K. Severin Alstad). 249.
Blalock-Taussig operation, a study of 50 cases after the, morbus cœruleus (Charles Baker, R. C. Brock, Maurice Campbell, and S. Suzman). 170.
British Cardiac Society, proceedings of the. 92 and 407.
Bundle branch block, cardiac infarction with (W. Somerville and Paul Wood). 305.

C

Calcified aortic valve (C. E. Davies and R. E. Steiner). 126.
Cardiac infarction, right bundle branch block and (Peter Meyer). 137.
Cardiac infarction with bundle branch block (W. Somerville and Paul Wood). 305.
Cardiomegally, familial (William Evans). 68.
Circulation times in congenital heart disease (K. D. Allanby). 165.
Clinical and epidemiological study, a. The natural history of coronary disease (John A. Ryle and W. T. Russell). 370.
Clinical teaching, a loud-speaker stethoscope for (A. F. Phillips). 48.
Clinical trial of rauwolfia serpentina in essential hypertension (Rustom Jal Vakil). 350.
Congenital aortic septal defect (J. H. Dadds and Clifford Hoyle). 390.
Congenital heart disease, circulation times in (K D. Allanby). 165.
Congenital heart disease, a study of 50 cases after the blalock-taussig operation (Charles Baker, R. C. Brock, Maurice Campbell, and S. Suzman). 170.
Congenital heart disease, thoracoscopy as an aid to diagnosis in (L. Fatti and J. C. Gilroy). 398.
Coronary disease, the natural history of. A clinical and epidemiological study. (John A. Ryle and W. T. Russell). 370.
Cretins, electrocardiographic studies in (Bernard Schlesinger and Bernard Landtman). 237.

D

Detection of heart disease, mass miniature radiography in the (Alex Maclean and Alfred Rogen). 264.
Different recovery rates in the bundle branches. Sino-auricular block, interference dissociation and (Howard B. Burchell). 230.
Digitalis on the venous pressure, the effect of (Paul Wood and John Paulett). 83.
Duration of normal heart sounds (Aldo A. Luisada, Felipe Mendoza, and Mariano M. Alimurung). 41.

E

Effects of thiocyanate on basal and supplemental blood pressures (K. Severin Alstad). 249.
Electrical and mechanical events in the cardiac cycle of man, the relationship between (B. Coblentz, R. M. Harvey, M. I. Ferrer, A. Cournand, and D. W. Richard Jr.). 1.
Electrocardiogram on man and animals, the effect of adenosine triphosphate on the (E. J. Wayne, J. F. Goodwin and H. B. Stoner). 55.
Electrocardiogram of posterior cardiac infarction (Peter Meyer). 271.
Electrocardiographic studies in cretins (Bernard Schlesinger and Bernard Landtman). 237.
Epidemiological study, a clinical and —. The natural history of coronary disease. 370.
Essential hypertension, a clinical trial of rauwaolfia serpentina in (Rustom Jal Vakil). 350.
Essential hypertension, results of medical and surgical treatment of (Marjory A. Keith, Barnet Woolf and Rae Gilchrist). 287.
European Cardiological Society. 296.

F

Familial cardiomegally (William Evans). 68.

H

Heart murmurs, the phonocardiography of (E. D. H. Cowen and D. H. Parnum). 356.
Heart rate with exercise in patients with auricular fibrillation (J. A. C. Knox). 119.
Heart sounds, the duration of normal (Aldo A. Luisada, Felipe Menodza and Mariano M. Alimurung). 41.
Hypertensive and ischæmic heart disease (C. V. Harrison and Paul Wood). 205.

I

Ischæmic heart disease, hypertensive and (C. V. Harrison and Paul Wood). 205.

L

Lay cardiologists (Terence East). 37.
Loud-speaker stethoscope for clinical teaching (A. F. Phillips). 48.

M

Mass miniature radiography in the detection of heart disease (Alex Maclean and Alfred Rogen). 264.
Mitral stenosis in later life (Harold Cookson). 155.
Morbus cœruleus (Charles Baker, R. C. Brock, Maurice Campbell and S. Suzman). 170.
Multiple unipolar chest leads, report of the committee of the British Cardiac Society on. 103.

N

Natural history of coronary disease. A clinical and epidemiological study (John A. Ryle and W. T. Russell). 370.

P

Patent ductus arteriosus, radiokymography in (K. Shirley Smith and Franklin G. Wood). 257.
Phonocardiography of heart murmurs (E. D. H. Cowen and D. H. Parnum). 356.
Posterior cardiac infarction, the electrocardiogram of (Peter Meyer). 271.
Proceedings of the British Cardiac Society. 92 and 407.

Q

Q–T interval in acute rheumatic carditis (D. Gordon Abrahams). 342.

R

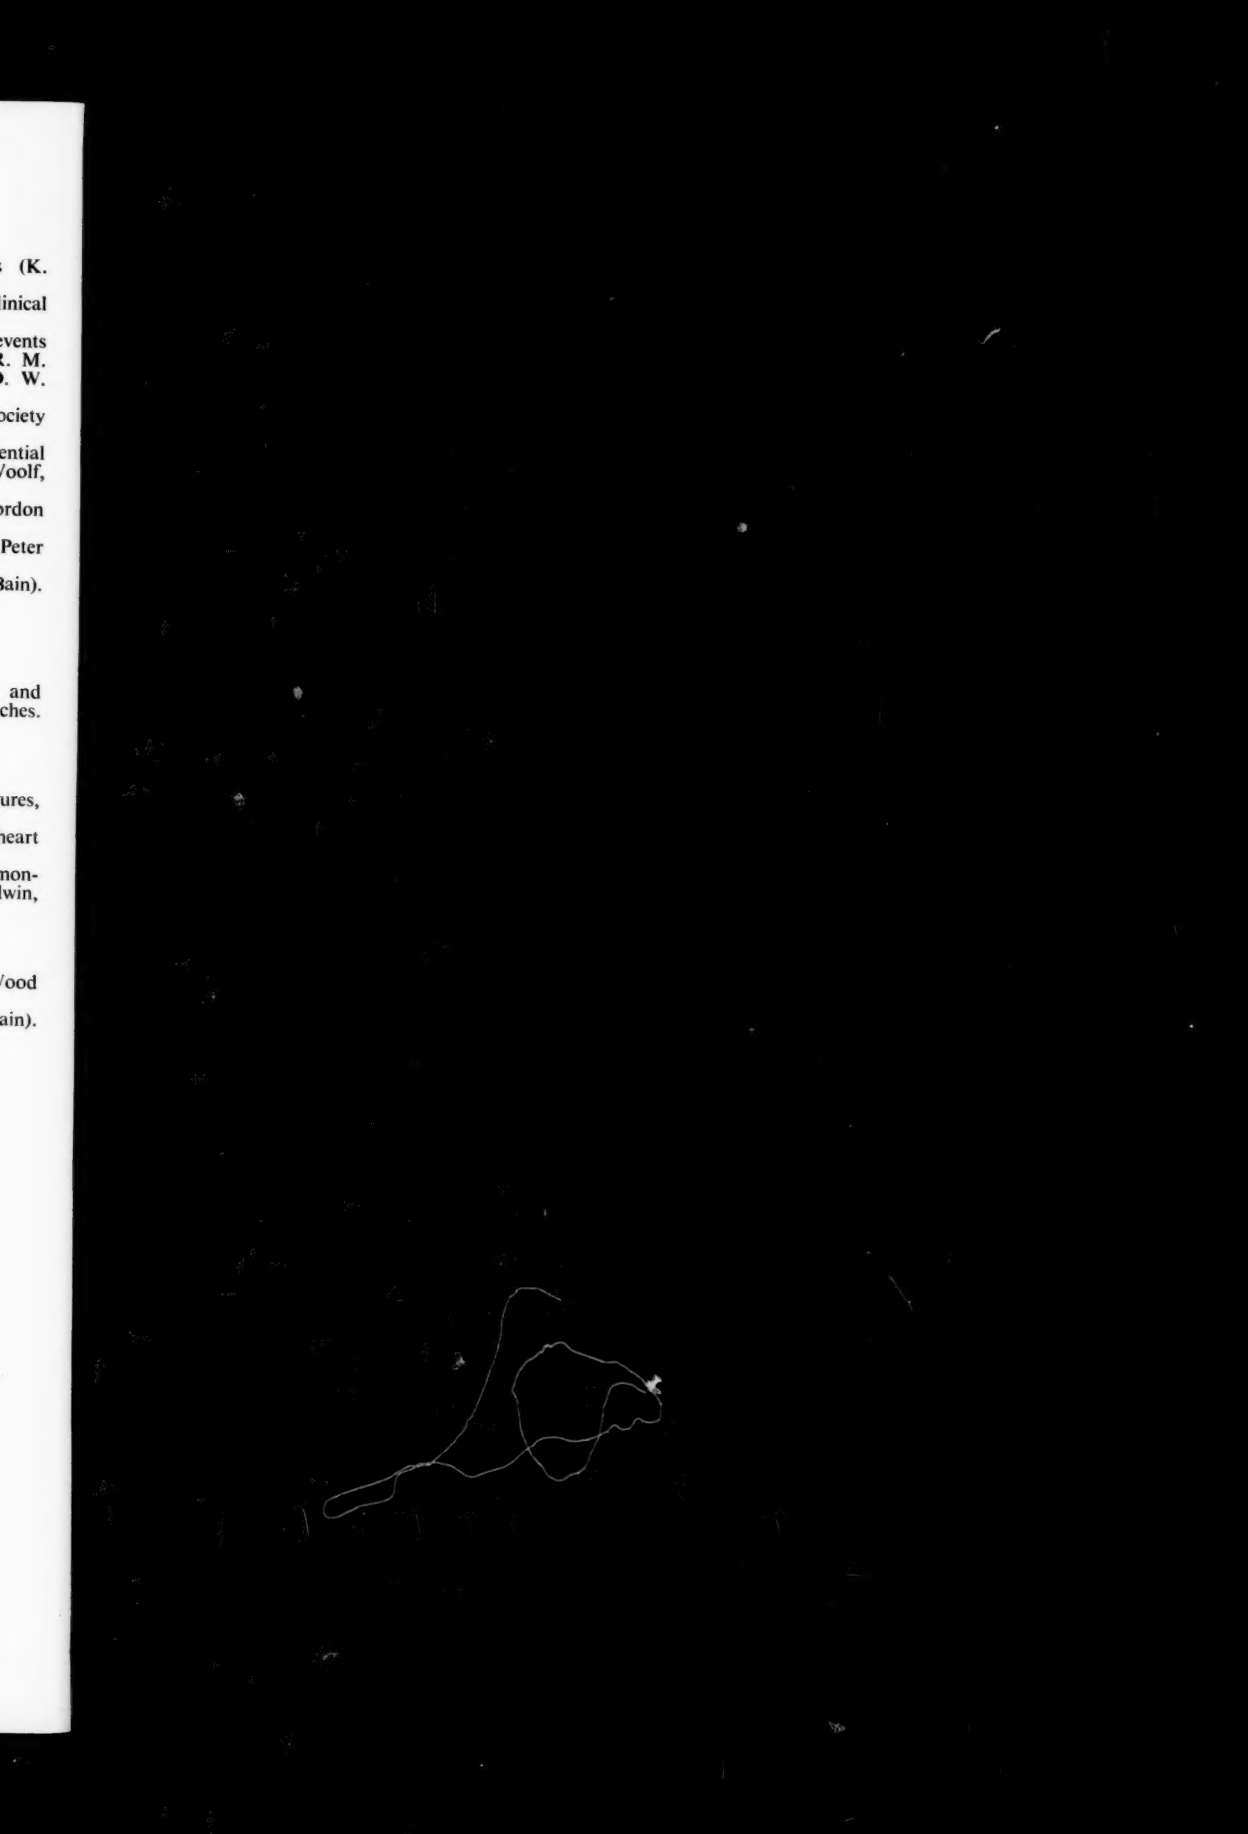
Radiokymography in patent ductus arteriosus (K. Shirley Smith and Franklin G. Wood). 257.
Rauwolfia serpentina in essential hypertension, a clinical trial of (Rustom Jal Vakil). 350.
Relationship between electrical and mechanical events in the cardiac cycle of man (B. Coblentz, R. M. Harvey, M. I. Ferrer, A. Cournand and D. W. Richard Jr.). 1.
Report of the committee of the British Cardiac Society on multiple unipolar chest leads. 103.
Results of medical and surgical treatment of essential hypertension. (Marjory A. Keith, Barnet Woolf, and Rae Gilchrist). 287.
Rheumatic carditis, the Q–T interval in acute (D. Gordon Abrahams). 342.
Right bundle branch block and cardiac infarction (Peter Meyer). 137.
Right ventricular stenosis (Terence East and Curtis Bain). 145.
R waves interrupting T waves (F. H. Smirk). 23.

S

Sino-auricular block, interference dissociation and different recovery rates in the bundle branches. (Howard B. Burchell). 230.

T

Thiocyanate on basal and supplemental blood pressures, the effects of (K. Severin Alstad). 249.
Thoracoscopy as an aid to diagnosis in congenital heart disease (L. Fatti and J. C. Gilroy). 398.
Transposition of the aorta and pulmonary artery demonstrated by angiocardiography. (J. F. Goodwin, R. E. Steine and E. J. Wayne). 279.

V


Venous pressure, the effect of digitalis on the (Paul Wood and John Paulett). 83.
Ventricular stenosis, right (Terence East and Curtis Bain). 145.
